AMBLER — Ambler Savings Bank Board of Trustees officially opened their new main office in downtown Ambler, PA, with a ribbon cutting on Friday, May 6. The new main office contains a modern bank branch connected to lenders, support staff and senior management.

The new 28,000 sq. ft. building features two drive-thru banking lanes, a drive-up and walk up ATM, ecologically friendly features, such as a green roof and low energy consuming fixtures, and safe deposit boxes. Additionally, the new Ambler Savings Bank main office features artwork by local Ambler artists.

But most importantly, the space will allow Ambler Savings Bank to grow and continue to serve customers as an independent, mutually owned financial institution headquartered in Ambler for many years to come.
