MAPLE GLEN – Maple Glen Elementary Students were on hand to help accept a donation to the Upper Dublin Education Foundation from Ambler Savings Bank. The gift will be used to enhance the District’s STEM program and robotics lab, and to help fund a summer robotics camp.

Upper Dublin School District offers summer robotics programs for elementary and middle school students. Through the arc of weeklong challenges, teams of students learn principles of programing and algorithmic thinking as they engage in the design process.

"We are grateful for Ambler Savings Bank's commitment to public education," said Jeffrey Wallack, President of the Upper Dublin Education Foundation. "Through this generous gift, our students will benefit from an exciting STEM experience and an enhanced educational opportunity over the summer months."

"Our commitment to education doesn't end in the spring," said Roger Zacharia, President and CEO of Ambler Savings Bank, "which is why we are excited to partner with the Upper Dublin School District and the Upper Dublin Education Foundation for this innovative summer STEM program."

Ambler Savings Bank is a mutually organized community bank headquartered in Ambler, and has locations in Fairview Village, Limerick, and Bally, as well as several continuing care retirement facilities. Learn more online at [www.AmblerSavingsBank.com](http://www.AmblerSavingsBank.com).
